Mob:(+974) 55927185 Work:(+974) 44541521

---

### RESEARCH INTERESTS

Understanding the role of Social Media during mass convergence events by using big data analysis techniques such as text classification, data mining, and interactive machine learning.

### EDUCATION

#### Ph.D. Computer Science

November 2009 – March 2013

University of Trento, Trento, Italy.

Concentration: Computer Science

#### M.S. Computer Science

September 2005 – September 2007

Mohammad Ali Jinnah University, Islamabad, Pakistan.

Concentration: Computer Science

#### B.S. Computer Science

January 2000 – December 2003

Allama Iqbal Open University, Islamabad, Pakistan.

Concentration: Computer Science

### HONORS & AWARDS

- **Best Paper Award**, ISCRAM conference, Baden-Baden, Germany, 2013.
- Recipient of scholarship from Opera Universitaria Italy, for four years (2009-2013) for pursuing PhD studies, 2009.
- Distinguished position (1st place) in Master of Science (Computer Science) Degree, 2007.
- 2nd prize in all Pakistan universities programming competition, 2006.

### SELECTED PUBLICATIONS

## RESEARCH EXPERIENCE

### Post-doctoral Researcher

April 2013 – Present

Qatar Computing Research Institute, Doha, Qatar

Responsibilities: At QCRI, my research focus is on Crisis Computing using Social Media. Humanitarian crisis computing seeks to rapidly identify situational awareness, actionable and tactical information in this growing stack of information. I mainly work on AIDR (Artificial Intelligence for Disaster Response) project as a researcher and technical lead. The focus of this research project is to use social media specifically microblogging platforms like Twitter during mass convergence events and humanitarian crises in an effort to mine, classify and extract actionable and tactical information that can help stakeholders gain situation awareness in time-sensitive situations.

### Research Associate

June 2012 – September 2012

Qatar Computing Research Institute, Doha, Qatar

Responsibilities: I was mainly involved in two research works. First, real-time social media analysis to predict the life span of an article posted on news websites (e.g. Aljazeera). This involves examining various factors associated with the article such as social media exposure of the article; number of visits it receives during first few hours, etc. However, second part of my work was related to the classification and extraction of useful information from disaster-related tweets for an effective disaster response.

### PhD Candidate

November 2009 – March 2013

University of Trento, Trento, Italy

Responsibilities: As a PhD candidate, I mainly worked on the research direction of end-user development leveraging Domain-Specific Mashups approach. The focus of

this research work was to enable non-programmers, non-technical people to perform complex data aggregation, data processing and data analysis tasks effectively using Web 2.0 technologies.

## TECHNICAL EXPERIENCE

### Database Administrator

July 2007 – August 2008

National University of Science & Technology (NUST), Islamabad, Pakistan

Responsibilities: At NUST, I was responsible for managing Oracle database mainly for administrative purposes like performance tuning, query execution, tuning execution plans.

### Java Developer (Intern)

February 2009 – May 2009

OKKAM, Trento, Italy

Responsibilities: At OKKAM, I worked with their research team to assist them analyzing big log files to investigate how complex systems operations execute under different circumstances. For example, this includes checking how much time a search query takes to find an entity in the OKKAM entities database, or why certain part of a query failed, etc.

## PROFESSIONAL ACTIVITIES

- **Track Co-chair, (Social media track), ISCRAM 2015 conference.**
- Program Committee, ISCRAM-Med 2014 conference.
- Reviewer, WISE 2014 conference.
- Reviewer, ISCRAM 2014 conference.
- Reviewer, WebSci 2014 conference.
- Reviewer, ICWE 2012 conference.
- Professional member of ACM and ISCRAM communities.

## TEACHING EXPERIENCE

- Service-Oriented Architecture and Applications – course held by Prof. Maurizio Marchese at the University of Trento, 2010 – 2011.
- Laboratory for Service Design and Engineering – course held by Prof. Maurizio Marchese at the University of Trento, 2011 – 2012.

## CERTIFICATIONS

- *Oracle Certified Professional (OCP)*  
Major: Database Administrator  
California, USA

## TECHNICAL SKILLS

- **Programming skills:** JAVA— SE, EE, EJBs, JADE, Web services (RESTFul, SOAP), Hibernate, SAX, JAXB, Python
- **Database skills:** Oracle database, MySQL, MS-SQL Server, Redis
