RESEARCH INTERESTS

I am interested in analyzing the role of social media and microblogging platforms such as Twitter during time-critical events by using big data analysis techniques such as data mining, machine learning, and deep neural networks to solve real world problems. Moreover, I'm interested in developing novel computational techniques and technologies useful for stakeholders gain situation awareness and actionable information to enhance critical decision-making for better emergency response.

Keywords: *Social computing, crisis informatics, data mining, time-critical information retrieval, machine learning, crowdsourced stream processing*

EDUCATION

Ph.D. Computer Science November 2009 – March 2013
University of Trento, Trento, Italy.
Concentration: Computer Science

M.Sc. Computer Science September 2005 – September 2007
Mohammad Ali Jinnah University, Islamabad, Pakistan.
Concentration: Computer Science

B.S. Computer Science January 2000 – December 2003
Allama Iqbal Open University, Islamabad, Pakistan.
Concentration: Computer Science

AWARDS, HONORS, AND GRANTS

Best Paper Award (2016): Received the Best Paper Award at the 13th International Conference on Information Systems for Crisis Response and Management (ISCRAM) in 2016, Rio de Janeiro, Brazil. (Role: First Author)

Best Paper Award (2013): Received the Best Paper Award at the 10th International Conference on Information Systems for Crisis Response and Management (ISCRAM) in 2013, Baden-Baden, Germany. (Role: First Author)

Finalist for Best Paper Award (2017): Our paper “Automatic Image Filtering on Social Networks Using Deep Learning and Perceptual Hashing During Crises” nominated for Best Paper Award at the 14th International Conference on Information Systems for Crisis Response and Management (ISCRAM), Albi, France. (Role: Team leader)

Grand Prize Winner at the Open Source Software World Challenge (2015): AIDR¹ project awarded the Grand Prize in the Open Source Software World Challenge 2015 competition. (Role: Team Leader)

Winner of the WISH Innovation Competition (2016): AIDR-SMS wins the innovation competition by World Innovation Summit for Health 2016.

¹<http://aidr.qcri.org/>

Start-up Grant Winner (2015): Qatar Science & Technology Park (QSTP) selected and granted our AIDR project to be launched as a start-up. (Role: Team Leader)

Awarded on the World Intellectual Property Day by the Ministry of Economy and Commerce Qatar and Qatar University (2017) for the impactful utilization of the AIDR technology for improving lives.

PhD Scholarship Winner (2009-2013): awarded by the University of Trento for PhD studies (2009-2013).

Distinguished Position holder in MSc (2007): Obtained Highest GPA in M.Sc. (Master of Science in Computer Science).

MEDIA, MAGAZINE, AND JOURNAL COVERAGE

New Scientist² features our joint work with UNICEF on SMS classification to understand public health issues and queries related to AIDS/HIV in Zambia.

WIRED Magazine³ mentions various aspects of the deployment of our technologies (AIDR & MicroMappers) during the 2013 earthquake in Pakistan.

Nature Journal⁴ covers the use of our machine learning and crowdsourcing technologies (AIDR & MicroMappers) during the typhoon Haiyan in the Philippines.

BBC News⁵ coverage on digital humanitarian response to the 2015 Nepal earthquake using our humanitarian technologies.

Forbes⁶ discusses about the research and development of our machine learning for humanitarian computing work at QCRI.

The Wall Street Journal (WSJ)⁷ asks Patrick Meier (a former colleague) about how social mapping provides rescue teams with a detailed, data-driven map generated by our humanitarian technologies developed at QCRI during various typhoons in the Philippines.

Mashable⁸ highlights the successes of our humanitarian technologies (AIDR & MicroMappers) during various typhoons in the Philippines.

Voice of America⁹ features our AIDR and MicroMappers technologies and describes how AI, tweets and texts speed up relief efforts in Nepal during the 2015 earthquake.

Gulf News¹⁰ discusses assisting humanitarian organisations cope with an overflow of information from social media using AIDR technology.

Automated Traders¹¹ features AIDR deployment during Nepal Earthquake 2015 and discusses how machine learning helps humanitarian agencies turn big data into informed, decisive action.

Brookings¹² explains how AIDR and MicroMappers technologies are useful for digital humanitarians and disaster response.

Data Drive Journalism¹³ features our AIDR technology and the use of machine learning and human computation for humanitarian crises.

Gulf Times¹⁴ publishes the news of the Grand prize award of our AIDR technology in the Open Source Software World Challenge.

The Peninsula¹⁵ featured our Grand prize award won by AIDR technology in the Open Source Software World Challenge 2015.

Qatar News Agency¹⁶ covers the news of the Grand prize award of our AIDR technology in the Open Source Software World Challenge.

Gulf Times, Arab News, Al Arab, Marhaba Newspaper, Qatar Tribune, The Peninsula, Raya, Qatar News Agency (QNA), Qatar is Booming, Fana News, and QANA¹⁷ featured the news of winning the WISH competition by our AIDR-SMS technology developed with UNICEF Zambia.

RESEARCH AND TECHNICAL EXPERIENCE

Research Scientist December 2014 – Present

Qatar Computing Research Institute, Doha, Qatar

Responsibilities: I lead the Crisis Computing team at QCRI. We focus on building computational models and innovative technologies to process high-volume social media textual and imagery data during time-critical events. We study and invent novel approaches to combine human and machine intelligence to solve non-trivial problems. Currently, interested in developing innovative solutions and technologies to help stakeholders (e.g., UN OCHA, UNICEF) gain situational awareness and actionable information from social media during time-critical and emergency events.

AINGEL Team Leader

September 2015 – February 2016

Qatar Science & Technology Park, Doha, Qatar

AINGEL (Artificial INtelligent GEo-Location) Response was a start-up funded by Qatar Science and Technology Park. This project aimed at collecting and processing imagery and video feeds from social media or drones to improve insurance claims processes. AINGEL uses machine learning techniques for data processing.

Post-doctoral Researcher

April 2013 – December 2014

Qatar Computing Research Institute, Doha, Qatar

Responsibilities: Conducted research on the application of Social Media mining

methods to problems in the humanitarian crises. Humanitarian crisis computing seeks to rapidly identify situational awareness, actionable and tactical information in the big crisis data available on Social Media. Currently, leading research and technical directions of AIDR (Artificial Intelligence for Disaster Response) project. The focus of this applied research project is to use Social Media microblogging platforms like Twitter during mass convergence events and humanitarian crises in an effort to mine and classify information that can help stakeholders gain situation awareness and in their decision making processes.

Research Associate

June 2012 – September 2012

Qatar Computing Research Institute, Doha, Qatar

Responsibilities: Mainly worked on two different research projects. The first project focused on real-time analysis of Social Media platforms such as Twitter, to predict life span of NEWS articles. Analysis of various parameters associated with articles like social media exposure in terms of their spread, first few hours visits, discussion was conducted using time-series analysis techniques. The second project focused on classification and extraction of useful information using machine learning techniques from disaster-related messages posted on Twitter to assist stakeholders in disaster response.

PhD Researcher

November 2009 – March 2013

University of Trento, Trento, Italy

Responsibilities: Worked on the research direction of end-user development. EUD research tries to bring programming closer to the needs of end users. My PhD dissertation introduced the concept of Domain-Specific Mashups in which Web 2.0 technologies were employed to empower and enable non-programmers, non-technical users to develop ad-hoc and situational applications to perform complex data aggregation, processing and analysis tasks.

Database Administrator/Developer

July 2007 – August 2008

National University of Science & Technology (NUST), Islamabad, Pakistan

Responsibilities: Designing, implementing, installing software solutions. Furthermore, I was responsible to perform administration, monitoring, and maintenance of Oracle database systems. Moreover, performance tuning, query execution, tuning execution plans, were among other important responsibilities.

**TEACHING
EXPERIENCE**

- Service-Oriented Architecture and Applications – course held by Prof. Maurizio Marchese at the University of Trento, 2009 – 2010
- Laboratory for Service Design and Engineering – course held by Prof. Maurizio Marchese at the University of Trento, 2010 – 2012

**PROFESSIONAL -Keynotes:
ACTIVITIES**

- International Conference on Information Systems for Crisis Response and Management (ISCRAM), 2016, Rio de Janeiro, Brazil.
- Exploitation of Social Media for Emergency Relief and Preparedness (SMERP) workshop, co-located with European Conference on Information Retrieval (ECIR), 2017, Aberdeen, United Kingdom.

- Invited talks:

- European Commission Joint Research Center (JRC), 2016, Ispra, Italy.
- UNESCO: United Nations Educational, Scientific and Cultural Organization workshop on Crowdsourcing tools, 2015, Geneva, Switzerland.

- At the Impacts of Extreme Natural Events: Science and Technology for Mitigation (IRENE) round table, December 2017, Colombo, Sri Lanka.
- Data Science workshop organized by the Higher Education Commission (HEC) Pakistan, Islamabad, 2017.
- International Conference on Innovative Computing (ICIC), 2016, Lahore, Pakistan.
- Machine Learning and Data Analytics Symposium (MLDAS), 2014, Doha, Qatar.
- Global Entrepreneurship Week, Qatar Science and Technology Park, 2015, Doha, Qatar.
- SeCO Workshop on Search Computing, 2010, Como, Milan, Italy.

- Editor of special issues:

- International Journal of Human-Computer Interaction (IJHCI): Special Issue on Social Media in Crisis Management, 2017.
- Journal of Information System Frontiers: Special Issue on Exploitation of Social Media for Emergency Relief and Preparedness, 2017.
- International Journal of Behaviour & Information Technology: Special issue on Social Media in Conflicts and Crises, 2018.

- Track Co-chair:

- International Conference on Information Systems for Crisis Response and Management (ISCRAM), 2015, 2016, 2017, 2018.

- Program committee member:

- International ACM Conference on Research and Development in Information Retrieval (SIGIR), 2018.
- International AAAI Conference on Web And Social Media (ICWSM-2016, 2017, 2018)
- International Conference on Digital Health (DH 2015, 2016, 2017, 2018)
- International Workshop on Social Web for Disaster Management (SWDM 2015, 2016)
- International Conference on Information Systems for Crisis Response and Management-Mediterranean (ISCRAM-Med 2014, 2015, 2016, 2017, 2018)
- ICWSM Workshop on Standards and Practices in Large-Scale Social Media Research (2015)
- International Conference on Emerging Technologies (ICET 2014)
- Computational Social Science Winter Symposium (CSSWS 2014)

- Reviewer:

- ACM Conference on Computer-Supported Cooperative Work and Social Computing (CSCW 2017)
- ACM Transactions on Information Systems (2015)
- Information Systems Frontiers Journal (2016)
- Computer Networks Journal (2014)
- International Conference on Web Information System Engineering (WISE 2014)
- International Conference on Information Systems for Crisis Response and Management (ISCRAM 2014, 2015)
- ACM Web Science Conference (WebSci 2014)
- International Conference on Web Engineering (ICWE 2012)

- Professional member:

- Association for Computing Machinery (ACM) professional member since 2012
- ISCRAM community professional member since 2012
- IEEE memeber since 2017

CERTIFICATIONS

- **Oracle Certified Professional (OCP)**
Track: Database Administration
California, USA

TECHNICAL SKILLS

- **Programming languages:**
 - JAVA— SE, EE, EJBs (expert level)
 - Web Services RESTFul, SOAP (expert level)
 - Python (advance level)
 - R (beginner level)
 - Microsoft .NET Framework using C#, ASP.NET and ADO.Net (advance level)
- **Databases:**
 - Postgres
 - Redis (expert level)
 - Oracle 9i, 10g, 11g (expert level)
 - MySQL, MS-SQL Server (advance level)
- **Misc. expertise:**
 - Good hands on knowledge of various machien learning and data mining libraries: Weka, Scikit-learn, DeepLearning4J
 - Good knowledge of OOP (Object Oriented Programming)
 - Experience designing and/or developing solutions using a Service Oriented Architecture (SOA)
 - Sound knowledge of 3-tier, N-tier architecture and distributed applications
 - Experience using tools such as NetBeans, Eclipse, Visual Studio.Net
 - Experience using technologies such as Maven, BaseCamp, Pivotal Tracker, GIT

MENTORING

Students mentored & co-mentored:

- Shruti Singala (2016)
 - Level: Summer intern at Qatar Computing Research Institute (QCRI)
 - Topic: Automatic detection of earthquake events from Twitter
- Mudra Patel (2016)
 - Level: Summer intern at Qatar Computing Research Institute (QCRI)
 - Topic: Automatic detection of earthquake events from Twitter
- Michele Lunelli (2010)
 - Level: Master (Laurea Magistrale) at the University of Trento
 - Co-mentor: Prof. Maurizio Marchese
 - Topic: Web crawling of Google Scholar and Microsoft Academic to extract scholarly data and scholarly metrics (h-index, g-index).

- Felix Kling (2011)
 - Level: Master (Laurea Magistrale) at the University of Trento
 - Co-mentor: Prof. Maurizio Marchese
 - Topic: Building Mashups: implementation of the front-end of the ResEval Mash project.
- Massimo Pacher (2011)
 - Level: Master (Laurea Magistrale) at the University of Trento
 - Co-mentor: Prof. Fabio Casati
 - Topic: Computation of the scholarly metrics of group of people such as research groups at universities or a research lab.
- Simone Dalcastagne (2011)
 - Level: Master (Laurea Magistrale) at the University of Trento
 - Co-mentor: Prof. Fabio Casati
 - Topic: Self-citations and other scholarly group metrics (e.g. group h-index).
- Matteo Bertoni (2013)
 - Level: Master (Laurea Magistrale) at the University of Trento
 - Co-mentor: Prof. Maurizio Marchese
 - Topic: Visualization of scholarly data: Built components for the ResEval Mash project.
